PAVING WORK ON NH ROUTE 108 IN DURHAM
WILL REQUIRE GRAVEL SURFACE FOR FIVE DAYS

The New Hampshire Department of Transportation announces paving work in Durham will require a gravel surface on a half-mile section of NH Route 108 for approximately five days, beginning on Monday, May 3, 2004. Motorists should expect the gravel surface on NH 108 between Canney Road and Bagdad Road.

One-way alternating traffic will be necessary during work hours in order to perform the work. Flaggers and uniformed officers will assist motorists through the work zone. Some delays can be expected.

This project includes the construction of four-foot shoulders to complete a missing link in an area bicycle network.

Weaver Brothers Construction Co. Inc. of Bow, New Hampshire is the prime contractor for the \$450,000 project, which has a completion date of July 30, 2004.
